Texturkollektion 4 Elemente

LUFT

LUFT

Ein Element, das wie kein anderes für Schwere-losigkeit und Beweglichkeit steht, doch zugleich eine unbändige Kraft besitzt. Energieerzeugend. Zerstörerisch.

Ein Element, das für den Menschen weder sicht- noch spürbar ist, jedoch für Freiheit und Unendlichkeit steht. Luft. Was ist das? Woher kommt Sie und wie verändert sie sich? Was spielt sich dort oben über unseren Köpfen ab?

Luft verbindet. Sie vereint unterschiedliche Welten. Sie kommuniziert. Sie trägt den Schall.

Ein Element, das sich ständig verändert und atemberaubende Naturschauspiele hervorruft, von denen bereits Kinder träumen: Wolken.

An element that stands for weightlessness and agility like no other, but has an unrestrained power at the same time. Energy generating. Destructive.

An element that is neither visible nor noticeable for the human but which stands for freedom and endlessness. Air - what is it? Where does it come from and how does it change? What is happening above our heads?

Air connects. It combines different worlds. It communicates. It carries acoustic noise.

An element that changes constantly and evokes breath taking natural spectacles that every kid dreams of: clouds.
